

# About Dr. Rambacher

Thomas Rambacher is a Doctor of Podiatric Medicine with expertise in surgical and non-surgical techniques to solve foot and ankle problems. His practice incorporates the finest in east and west coast thinking to offer patients a quick return to an active life style after treatment or surgery.

In all of his treatments he strives to limit downtime from hobbies, work, and general activities.

Most surgeries are done in conjunction with the philosophy of walk-in, walk-out of surgery, and continuing to walk without the need for crutches or casts.

Put your feet on the road to recovery!

## Diagnostic Podiatry

Dr. Rambacher's foot and ankle practice focuses on the diagnosis of the underlying conditions that cause foot and ankle problems. Diagnostic podiatry incorporates special attention to patients' medical history, including medical conditions that may contribute to the occurrence of foot and ankle problems such as bunions, plantar fasciitis, arthritis, toenail problems, chronic ankle sprains, and infections.

## Our Office Experience

Our friendly staff is compassionate, caring and attentive to our patients' needs as well as the needs of their families. Our front office staff is very helpful, knowledgeable and able to assist with any paperwork and insurance inquires you might have. Complimentary coffee and other beverages are offered to all of our patients. Our back office offers a high level of diagnostic technology as well as a thoughtful consideration to detail.

With two office locations in South Orange County and extended hours, Dr. Rambacher strives to be available to his patients with convenient appointment times and locations.

If you or a loved one doesn't have the ability to come to our office, the doctor will come to your home anywhere in Orange County.

Paperwork is available online to be printed out and completed prior to your first appointment for your convenience at [www.podiatryhotline.com](http://www.podiatryhotline.com) under the "Insurance and Forms" tab.

"I encourage patients to be involved in their treatment plans," says Dr. Rambacher. "I take the time to explain treatment options in detail and always provide patients with my direct line so they can reach me should any questions arise."
